Responsive coordination from enquiry to delivery

Mission. Vision. Values.

01

Mission

To support clients with responsive, practical and commercially clear solutions that help them mobilise people, equipment, materials and services when needed.

02

Vision

To become a trusted project-support partner in Saudi Arabia through reliability, service flexibility and consistent attention to client requirements.

03

Values

Integrity, responsiveness, safety awareness, client focus, teamwork and continuous improvement guide every commercial and operational interaction.

Our operating mindset

Project requirements can change quickly. Our role is to keep communication direct, confirm scope before commitment and coordinate resources around the actual need - quantity, specification, location, duration and schedule.

FOLLOW-THROUGH

Construction & infrastructure

Five complementary service capabilities

Manpower • Equipment • Materials • Scrap • Catering & Food

Manpower Supply

Flexible workforce support based on trade, quantity, duration, work location and client-defined competency requirements.

- ✓ Engineers and technical professionals
- ✓ Supervisors, foremen and chargehands
- ✓ Electricians, plumbers, welders and fitters
- ✓ Carpenters, masons and civil trades
- ✓ Equipment operators, drivers and helpers
- ✓ General labour, store and logistics support

01 / REQUIREMENT

Confirm

Trade, quantity, duration, shift and location.

02 / SELECTION

Coordinate

Suitable manpower against client requirements.

03 / MOBILISE

Schedule

Deployment subject to documentation and availability.

04 / SUPPORT

Follow up

Maintain coordination during the assignment.

Workforce transportation can be coordinated with project requirements.

Equipment Solutions

Equipment support matched to the task, capacity, duration and site conditions. Final availability and commercial terms are

Excavators & loaders

Dump trucks

Roadwork equipment

Lifting & access

Workforce buses

General site equipment

Short-term rental

Longer-term coordination

Industry reference imagery

Road & infrastructure

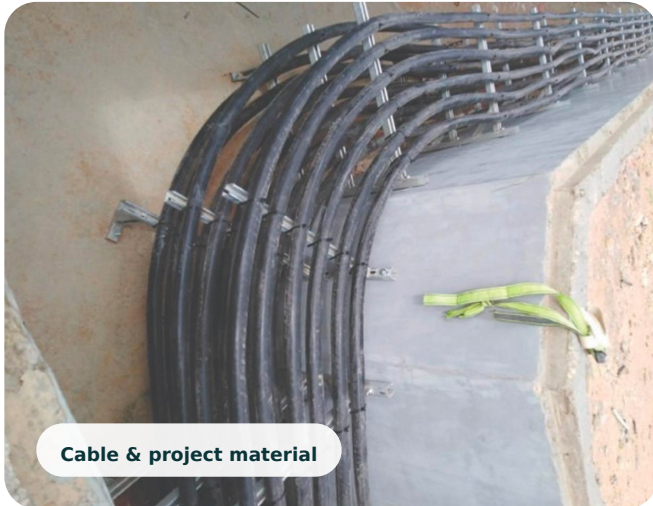

How we coordinate equipment

Type, capacity, attachments, operating requirements, duration and delivery location are confirmed before quotation. Mobilisation is then coordinated according to agreed scope and availability.

- ✓ Clear equipment specification
- ✓ Commercial alignment before dispatch
- ✓ Site delivery planning
- ✓ Rental-period follow-up

Material Supply

Specification-driven procurement support for project materials, tools, consumables and general supply requirements.

Typical categories

- ✓ Electrical and cable-related materials
- ✓ Mechanical and piping items
- ✓ Civil and general construction materials
- ✓ Tools, consumables and accessories
- ✓ Safety and general-use items
- ✓ Project-specific items by approved specification

01

Specify

Item, quantity, brand or standard.

02

Quote

Commercial options by availability.

03

Supply

Arrange against delivery plan.

04

Document

Coordinate delivery records.

Selected project imagery illustrates typical material applications and is not presented as a Drizzle Dew Peak project list.

Scrap Services

Site collection, segregation and commercial handling support for suitable recoverable materials.

Recover value. Clear the site.

Commercial handling is based on material type, quantity, condition, access and transport requirements.

Typical scrap streams

- ✓ Ferrous and non-ferrous metal
- ✓ Cable and electrical scrap
- ✓ Mechanical and fabrication offcuts
- ✓ Recoverable project materials

Handling support

- ✓ Site review and material identification
- ✓ Sorting and segregation coordination
- ✓ Loading and transport planning
- ✓ Commercial documentation and close-out

Suitable for industrial, construction and commercial environments.

Catering & Food Services

Workforce meal and food-service support planned around headcount, shift timing, distribution points and site requirements.

Daily Meals

Breakfast, lunch and dinner programs

Packed Meals

Site-friendly distribution options

Camp & Office

Project, workplace and event support

Service planning

- ✓ Headcount and shift schedule
- ✓ Meal timing and distribution points
- ✓ Client-approved menu planning
- ✓ Dietary and operational requirements

Service focus

- ✓ Practical logistics
- ✓ Consistent meal schedules
- ✓ Hygiene-focused handling
- ✓ Clear coordination and follow-up

Meals planned around the workforce.

Requirements are confirmed before service begins.

Where our services fit.

Our five capabilities are designed for work environments where mobilisation, supply continuity, logistics and workforce support are important.

Construction

People, equipment and materials coordinated around active project schedules.

Industrial

Resource and operational support for demanding site environments.

Commercial

Supply, catering and support services for business and facility requirements.

Industry imagery is used to illustrate service environments and does not constitute a Drizzle Dew Peak project portfolio.

Scope clearly. Coordinate carefully. Follow through.

01 / SCOPE

Understand

Quantity, specification, location, duration and required date.

02 / COMMERCIAL

Align

Prepare a clear quote and confirm service conditions.

03 / DELIVERY

Mobilise

Coordinate people, equipment, goods or service execution.

04 / SUPPORT

Follow up

Maintain communication through completion or service period.

Standards we work toward

Q

Quality

Resources are coordinated around the agreed specification and intended use.

S

Safety Awareness

Planning respects client site rules, safe working practices and operational constraints.

R

Responsiveness

Direct communication and timely handling of changing project requirements.

Practical coordination for fast-moving project environments.
